TANK & OPERATING EQUIPMENT

FLOWLINE - (www.flowline.com)

- Flowline designs and manufactures the best level measurement and control instruments for your chemical, water, wastewater, oil, and dry solid applications. We enable industrial manufacturers, chemical distributors, municipalities, and energy or food suppliers to safely and efficiently manage their contained liquid and solid assets. Our quality level solutions measure tank and silo inventories, automate containment processes, ensure workplace safety, and protect the environment. Our customers are specifying engineers, system integrators, original equipment manufacturers, facility operators, instrumentation engineers and maintenance decision makers. Flowline products are manufactured in the United States under our ISO 9001 and ATEX quality management system.

KENCO ENGINEERING - (www.kenco-eng.com)

- Kenco Engineering supplies various liquid level gauges & switches, level transmitters, valves, protection gauges, sight flow indicators/ windows, pump setting gauges, calibration pots/ cylinders, injection rate gauges, float switches and safety valves.

SHAND & JURTS (L&J TECHNOLOGIES) - (www.ljtechnologies.com/sj/sj.htm)

- Manufacturing of conservation vents, vapor recovery systems, valves, gas blanketing valves, tank fittings, flame & detonation arresters, vacuum vents, pressure vents, insulation jackets and emergency vents.

PNEUMERCATOR - (www.pneumercator.com)

- Products range from tank management systems, analog gauges, audible alarm controls, pump controllers, power surge protection, liquid level switches, probes, leak sensors and software.

GILBERT INDUSTRIES (www.gilbertindustries.com)

- Vessel products and operating equipment in stainless steel, NI alloys, and carbon steel. Field erected and shop fabricated tanks in any capacity as well as field service.
- Special apparatus on field service
- Field erected and shop fabricated tanks in various sizes and shapes up to millions of gallons

STANWADE METAL PRODUCTS – (www.stanwade.com)

- Carbon steel tanks and operating equipment. Tanks up to 30,000 gallons.
- Manufacturing in Hartford, Ohio.

THALETEC GLASS LINED EQUIPMENT – (www.thaletec.com)

- Glass lined reactors, tanks, columns and engineered process systems.
- Glass Repair Patches, Power Baffles and other Thaletec accessories
